

IMPORTANT NOTICE

Microsurfacing Roadwork

Dear Emigration Canyon Residents:

American Pavement Preservation will be applying a microsurfacing to roads in Emigration Canyon over the coming week. This notice is being sent out in advance so that you can plan ahead for this work. This preventative maintenance is necessary to extend the life of the pavement and improve overall road quality.

What to Expect:

- **Work Hours:** 7:00 AM – 5:00 PM (weather permitting)
- **Road Closures:** Sections of Emigration Canyon will be **closed to all traffic** during work hours
- **No Access to Residences:** Residents will **not have access to their homes, driveways, or streets** during active work hours and while the microsurfacing cures
- **Drying Time:** The microsurfacing is a wet asphalt when applied and requires several hours to dry before vehicles or pedestrians can safely use the surface
- **Parking:** Please arrange **alternate parking** in advance, as vehicles parked on affected streets will be towed
- **Traffic Control:** A **pilot car** will be in use to guide traffic where access is permitted. Please follow all traffic control signage and pilot car's instructions.
- **"No Parking" Signs:** Posted in advance to indicate exact locations and dates of closures
- **Delays** – Delays may occur, we recommend allowing extra travel time.

We understand this work may cause temporary inconvenience, and we appreciate your understanding and cooperation. Please plan ahead to minimize disruption during this short-term but essential road improvement project.

YOU WILL BE GIVEN AN ADDITIONAL NOTICE AND INFORMATION EXPLAINING THE PROCESS.

WE THANK YOU FOR YOUR COOPERATION AND PATIENCE

American Pavement Preservation
